PAUL, on behalf of the CRS/Sirrinc Joint Venture, I would like to take this opportunity to say that it was a privilege to have you visit our offices last week. Now that we have met you and learned more about your needs, we are even more enthusiastic about working on this exciting and unique project.

I have enclosed two additional copies of the CRS publications that you requested through Nick Kolesnikoff. We greatly appreciate the well organized selection process you directed, and were impressed by the thorough and professional manner with which it was conducted.

We look forward to working with you on this most interesting project. If you require any additional information, please do not hesitate to contact either me or Jay Neyland personally.

Warm regards,

Paul A. Kennon, FAIA
